

STRONGARM HYDRALIFT 150

Engineered for safety.

Proven for industry.

The **Hydralift 150** is based on a long-standing Australian bin lifter design that has served councils, schools, waste contractors and industrial sites for decades.

Strongarm Manufacturing continues this Australian engineering legacy with a tougher, safer, and more advanced **Hydralift 150**.

Re-engineered and rebuilt for today's OHS requirements and industrial environments, the **Hydralift 150** brings a proven concept up to modern standards.

Fully automated lifting

Zero manual handling

Hands-free tipping

Telescopic mast - superior visibility

Automated bin-catch system

No manual latching

No lifting and aligning

No adjustment or setup

Reduced collision risk

No bin slip or bounce
